

What to draw.

The artwork is generated in to draw!

database. To be if has different types / generate by comparing my how to the picture in the If then this to figure out what I draw

I think if needs the pen movement I now

4. How do you think the Pen Plotter's drawing depends on your drawings? How does it work?

- using own artwork as database
- bigger database ? Or smaller ? / Different in
- using different tools

3. How could the setup with the Pen Plotter be improved?

- don't really know how to archive who
- do it know what to draw / where to start /
- know him if easier to start on some kind
- a white canvas

2. Which group of users would most enjoy using this Setup?

- getting out of a creative blockade
- teaching others about art / art concepts
- games? (Linux activity)
- helping people to start drawing / getting creative

1. Which other tasks could you imagine using the Pen Plotter for?

2 Additional Questions

I feel like the setup is pretty complicated + repetitive
 for me to use privately / or my own.
 Also I'd rather draw with another person
 than a plate

6. Would you use this system privately?

It's very different to drawing alone. On one hand I feel like I was being watched (cameraman etc). On the other hand I was influenced by what was going on, something or someone inspired by it.

5. If you have past drawing experience, how do you compare this to other drawing experiences?

may be if it's to understand what I'm drawing
but could not if so no idea

4. How do you think the Pen Plotter's drawing depends on your drawings? How does it work?

work Q10rs

3. How could the Setup with the Pen Plotter be improved?

users and people who just draw a lot

2. Which group of users would most enjoy using this Setup?

when it helps with studying the process of creating
mathematical drawings

1. Which other Tasks could you imagine using the Pen Plotter for?

2 Additional Questions

if it has the pressure to have an idea

5. If you have past drawing experience, how do you compare this to other drawing experiences?

6. Would you use this system privately?

Yeah why not . If was fun

I have no idea anymore. I tried to get
back to the previous board it just did not work
out. I, the last time it just drew some weird
different sizes. The first time was fine
but, the second one was very weird.

4. How do you think the Pen Plotter depends on your drawings? How does it work?

The sheet could be bigger.

3. How could the Setup with the Pen Plotter be improved?

People who are interested but not educated
in technology

2. Which group of users would most enjoy using this Setup?

Creating would be fun or drawing
something or tattooing

1. Which other Tasks could you imagine using the Pen Plotter for?

2 Additional Questions

yes but just if I feel very nervous and my heart is a high ambition to create something nice.

6. Would you use this system privately?

usually I set up cards and have a high level in drawing. Using + a pen plotter I need no ambition to make anything nice.

5. If you have past drawing experience, how do you compare this to other drawing experiences?

2 Additional Questions

1. Which other Tasks could you Imagine using the Pen Plotter for?

making technical drawings using co-drawing with AI

2. Which group of users would most enjoy using this Setup?

Artists, creatives, AI enthusiasts

3. How could the Setup with the Pen Plotter be improved?

Large paper, different colored pens

4. How do you think the Pen Plotters drawing depends on your drawings? How does it work?

round 2, if most likely depends on the placement of my drawings
round 3 I think it was following the shapes
of what I was drawing

No, I have no ut case scenario for it.

6. Would you use this system privately?

I do not, but I enjoyed exploring what
the AF was doing

5. If you have past drawing experience, how do you compare this to other drawing experiences?

U don't think if deo

4. How do you think the Pen Plotter's drawing depends on your drawings? How does it work?

That we draw not just randomly draw
Anywhere on the paper.

3. How could the Setup with the Pen Plotter be improved?

your pedate.

2. Which group of users would most enjoy using this Setup?

Making pictures or art of its own.

1. Which other Tasks could you imagine using the Pen Plotter for?

2 Additional Questions

Probably not, but it has also seen
it make beautiful pictures by itself

6. Would you use this system privately?

A don't

5. If you have past drawing experience, how do you compare this to other drawing experiences?

I really don't know.

4. How do you think the Pen Plotter's drawing depends on your drawings? How does it work?

More All for better interaction

3. How could the Setup with the Pen Plotter be improved?

Creative artists who like to read on the input from sources else

2. Which group of users would most enjoy using this Setup?

Write a text = like a one world challenge.

1. Which other Tasks could you imagine using the Pen Plotter for?

2 Additional Questions

yes for you

6. Would you use this system privately?

If it is more for the creativity course you have to work with the 'input', but sometimes the input from the other course shift.

5. If you have past drawing experience, how do you compare this to other drawing experiences?

It tries to identify motives and elicits certain responses from me if I start drawing it myself because it depends on my drawings.

- How do you think the Pen Plotter's drawing depends on your drawings? How does it work?

The AI; therefore would have to be very accurate and/or programming.

- How could the Setup with the Pen Plotter be improved?

Robot abilities or specific job fields

- Which group of users would most enjoy using this Setup?

Maybe, if programmed to work very accurately, it could do something like follow your hand (here?) drawings (~~in~~ in a very accurate way maybe something

- Which other Tasks could you imagine using the Pen Plotter for?

2 Additional Questions

possibly not.

6. Would you use this system privately?

It is like a ping pong game. Board game for all, it's a lot of process.

5. If you have past drawing experience, how do you compare this to other drawing experiences?

Finaly sis of world I draw; compare
to database like select a common
image to add.

4. How do you think the Pen Plotter drawing depends on your drawings? How does it work?

If the pen plotter could draw with me
with we will would be good I thought
if the pen plotter could draw more

3. How could the Setup with the Pen Plotter be improved?

Children

2. Which group of users would most enjoy using this Setup?

Drawing geometric patterns

1. Which other Tasks could you imagine using the Pen Plotter for?

2 Additional Questions

16.

6. Would you use this system privately?

16 past drawing experience

5. If you have past drawing experience, how do you compare this to other drawing experiences?

I think it sees certain shapes and draws something
 It remains if of that if has drawn before
 Honestly quite confused, it doesn't seem to recognize
 what I draw or have specific awareness

4. How do you think the Pen Plotter depends on your drawings? How does it work?

A pen that draws on the paper smoother, more secured
 paper on a smoother surface (less ridges) to avoid
 little jumps.
 more closer to edge of table

3. How could the setup with the Pen Plotter be improved?

Archives, digital creators, designers,
 easelches

2. Which group of users would most enjoy using this Setup?

Drawing challenges to get out of a creative rut
 ↪ like Pen Plotter lead and turn its drawing into
 something you see in it

1. Which other Tasks could you imagine using the Pen Plotter for?

2 Additional Questions

It's fun though?
 It would be.
 It's quite expensive and isn't as fine tuned as I hoped
 probably not, cause it takes up some space, probably

6. Would you use this system privately?

This is unclear to me and anonymous, it feels like a blind date
 seems to have its own agenda and little regards to
 working together is difficult in the way that the rods
 what I draw.

5. If you have past drawing experience, how do you compare this to other drawing experiences?

already suitable for my drawings
and carry it to the
adults also

4. How do you think the Pen Plotter's drawing depends on your drawings? How does it work?

- more precisely AI needs standard
the drawings of the user

3. How could the Setup with the Pen Plotter be improved?

- people who like to draw

2. Which group of users would most enjoy using this Setup?

- create designs for products
- create art

1. Which other Tasks could you imagine using the Pen Plotter for?

2 Additional Questions

No

6. Would you use this system privately?

Don't have much drawing experience
but I did had feel like been
in a few | as I would getting a lot

5. If you have past drawing experience, how do you compare this to other drawing experiences?

Some do not respond to all
but it is caused by its own addition.
Same issues see and interpret

4. How do you think the Pen Plotter's drawing depends on your drawings? How does it work?

With this
shape
high accuracy and response.
if drawing our say shape

3. How could the Setup with the Pen Plotter be improved?

children and digital students
of art.

2. Which group of users would most enjoy using this Setup?

Making images to cover in.
printing drawings
gains

1. Which other Tasks could you imagine using the Pen Plotter for?

2 Additional Questions

5. If you have past drawing experience, how do you compare this to other drawing experiences?

With excusing, make unknown but also
make us sharing is the process is
changed by the pilot.

6. Would you use this system privately?

To play with.

It seemed to analyse sculptures well. I drew and added for friends.

4. How do you think the Pen Plotter drawing depends on your drawings? How does it work?

It has direct feedback. Way to know what it thinks and if it understand us. It's like to tell it what to add it's clear.

3. How could the Setup with the Pen Plotter be improved?

When you're sketching, people waiting on concepts! If you need an initial idea

2. Which group of users would most enjoy using this Setup?

Groups with friends, art, crafts, craftivity supporters

1. Which other Tasks could you imagine using the Pen Plotter for?

2 Additional Questions

No

6. Would you use this system privately?

If I'll like drawings will a child become 2 and 4

5. If you have past drawing experience, how do you compare this to other drawing experiences?
